WHAT I CAN HELP WITH

Digital work, from start to finish.

Websites
Business sites, portfolios, landing pages, online services and improvements to existing sites.

Mobile apps
Useful apps for customers, teams or personal ideas, from concept through release.

Online platforms
Booking systems, dashboards, portals, accounts and tools that bring your work into one place.

Business software
Custom tools that simplify operations, organize information and reduce repetitive work.

Infrastructure & hardware
Full-scale automated Linux or Windows systems, with hardware and software working together.

Consulting & coordination
Clear business English and practical advice to bridge goals, people, software and infrastructure.

COMPANIES I HAVE WORKED WITH. EVER GROWING.
